

# Foot Bridges

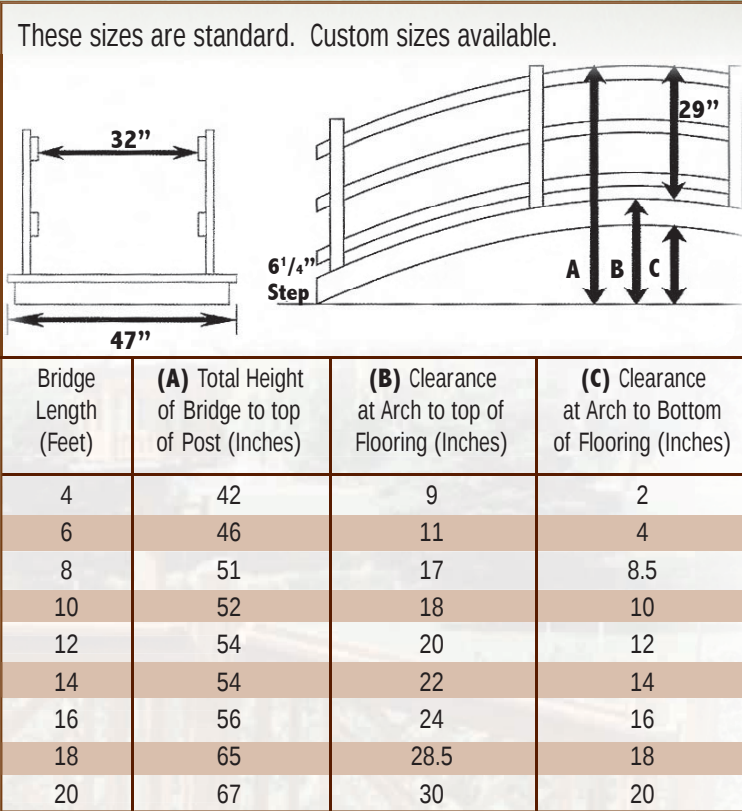

20' Victorian Bridge, painted

We offer our bridges stained with wood sealer to help prevent the effects of aging and splitting. Our weather resistant sealer gives the wood a golden honey appearance. We also offer painted bridges.

- Weight limit on regular and wide bridges is 1,000 lbs.
- Weight limit on narrow bridges is 500 lbs.
- Weight limit on bridge should not exceed 25 lb. per square foot.
- Custom bridges available built to your specifications.
- Bridge designs are subject to change without notice.

Authorized Dealer:

- Three styles of railing available for bridges.
- Japanese railing is 10" high.
- Standard bridge width is 32" inside and 47" outside.
- Wider-than-standard bridges available in 1' increments.
- Laminated beam style is for bridges over 20'.
- Approximately 10% incline on bridge floor.
