Siding Types

LP Smart Panel w/ SilverTech

Innovative LP SmartSide Panels with Silver-Tech feature a finish-grade radiant barrier that resists flaking and peeling. These panels also help reduce the sun's radiant energy through the panels. It's an ideal choice for sheds and workshops that helps keep stored items cooler and brightens the interior.

Vinyl Siding over plywood or LP Techshield

Techshield is a sheathing product that has a radiant barrier and carries a 20 year limited warranty. The radiant barrier blocks 97% of the radiant heat in the panel from radiating into the shed or garage. Results have shown to reduce temperature by up to 30 Degrees Fahrenheit.

Techshield is used for all of our shed and garage roof sheathing except budget models, unless specified.
